PROFESSIONAL SUMMARY

Microsoft Certified: Azure Data Fundamentals (DP-900) Data Engineer with hands-on experience in building scalable ETL/ELT pipelines, SQL query optimization, data modeling, and analytics solutions using Python and SQL. Skilled in designing data pipelines, relational databases, and reporting workflows. Experienced in technical leadership within EdTech platforms serving 130,000+ active users. Successfully completed the Digilians Data Engineering Program at the Egyptian Military Academy in collaboration with the Ministry of Communications and Information Technology (MCIT).

EDUCATION

B.Sc. Computer Science

Faculty of Computers and Information, Tanta University

Sep 2019 – Jun 2023

Tanta, Egypt

- Very Good Grade.

WORK EXPERIENCE

Data Engineering Specialist Trainee

Digilians · Egyptian Military Academy (in collaboration with MCIT)

Jan 2026 – Jun 2026

Egypt

- Developed and optimized ETL/ELT pipelines using Python and SQL for analytics and reporting workflows.
- Improved SQL query performance by 30% through query optimization and indexing strategies.
- Designed scalable relational data models for analytical systems.
- Performed data extraction, transformation, and loading (ETL) to support business intelligence and reporting.
- Collaborated with cross-functional teams to deliver reliable, scalable data solutions.

Technical Lead – LMS & EdTech Platforms

Camp Coding

Jul 2020 – Dec 2025

Tanta, Egypt

- Led development and deployment of 100+ LMS platforms for clients across Egypt and the Middle East.
- Built systems supporting more than 130,000 active users in production environments.
- Managed technical teams to ensure platform scalability, stability, and performance.
- Oversaw mobile application publishing across Google Play, App Store, and Huawei AppGallery.

IT Manager

Baseeta

Nov 2023 – Jul 2025

Part-time

- Oversaw IT operations improving system reliability and operational efficiency.
- Led website optimization initiatives focused on performance and security.
- Collaborated with stakeholders to align technology solutions with business objectives.

Software Sales Specialist

Alnaierh

Dec 2024 – Jun 2025

Riyadh, Saudi Arabia · Remote

- Maintained software operations ensuring high system availability and stability.
- Contributed to website lifecycle management and performance enhancement.
- Bridged communication between technical teams and business stakeholders.

KEY PROJECTS

SSIS Data Warehouse ETL Pipeline

[GitHub](#)

- Built an end-to-end Data Warehouse solution using SSIS, SQL Server, and Star Schema architecture.
- Implemented ETL workflows with SCD Type 1 & 2 handling and integrated SSAS/SSRS reporting.

Airflow ETL Pipeline

[GitHub](#)

- Developed automated ETL workflows using Apache Airflow and Astronomer in a Dockerized environment.

Hospital Admissions Pipeline

[GitHub](#)

- Built an end-to-end Big Data pipeline transforming raw hospital data into analytics dashboards using Python, Hive, and Docker.

Selenium ETL Pipeline

[GitHub](#)

- Created a web scraping and ETL workflow integrating APIs, Pandas transformations, and SQLite storage.

E-Commerce SQL Database

[GitHub](#)

- Designed a full relational SQL Server database including schema design, realistic data population, and business-focused analytical queries.

TECHNICAL SKILLS

Languages & Tools: Python, SQL, Pandas, NumPy, Selenium

Databases: SQL Server, PostgreSQL, MySQL, SQLite

Data Engineering: ETL / ELT Pipelines, Data Warehousing, Star Schema, Apache Airflow, Docker, Hadoop, Hive

Cloud & Analytics: Microsoft Azure, Apache Spark, Apache Kafka, Business Intelligence (BI)

Leadership: Technical Leadership, Cross-functional Teams, System Architecture

CERTIFICATIONS

[Microsoft Certified: Azure Data Fundamentals \(DP-900\)](#)

LANGUAGES

Arabic: Native

English: Intermediate
